

We continued to make improvements to our **market-leading parking app.**

Daily Pass Bundles

Allowing those not ready to commit to subscription to lock in at the same rate.

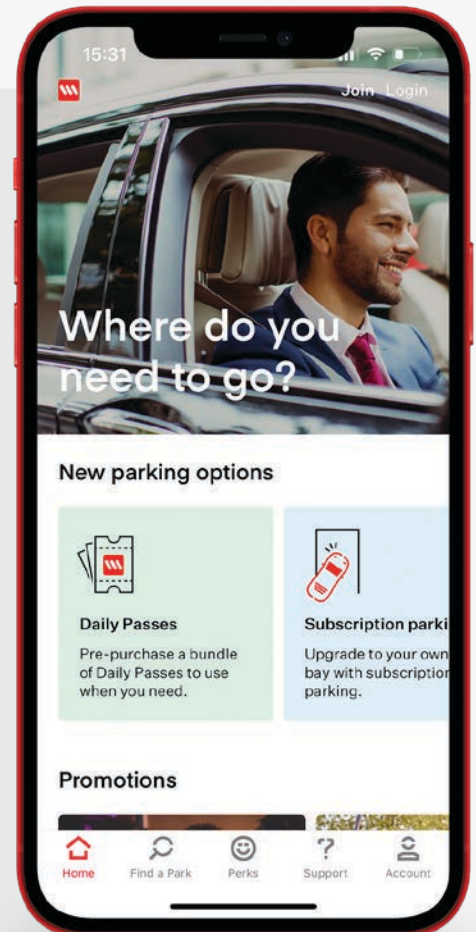

Monthly Subscriptions

Now available via the app, Monthly Subscriptions were made easier to request and buy.

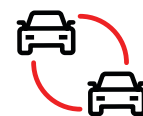

1.6 million users

With a **4.8 Star Rating** the app receives unprecedented positive reviews for such a platform.

We launched Shuffle, a platform helping businesses **share their available parking bays.**

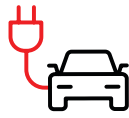

With commuters changing the way they travel to work, with many switching from public transport to private vehicles, Shuffle is helping landlords, owners and employers optimise parking, and work in a more flexible world.

We made a step forward towards **reducing energy** and allowing our customers to **charge their EV.**

We improved energy efficiency by up to 86%

We worked with PowerWell to improve the lighting and energy efficiency across our car parks.

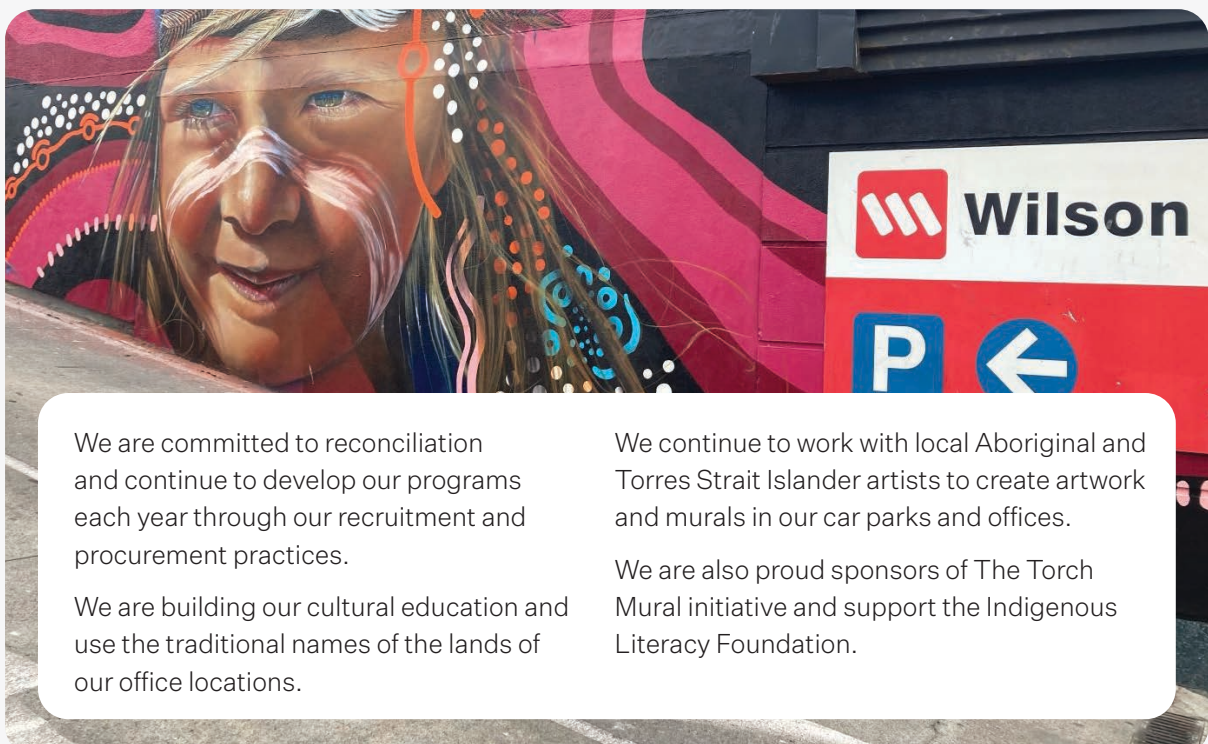

We introduced EV Charging bays

With EV Charging available at selected car parks, we're making it easier for customers that drive an electric vehicle.

We continue to build on our Reconciliation Action Plan.

Reconciliation is important in driving equity and creating a united Australia.

We are committed to reconciliation and continue to develop our programs each year through our recruitment and procurement practices.

We are building our cultural education and use the traditional names of the lands of our office locations.

We continue to work with local Aboriginal and Torres Strait Islander artists to create artwork and murals in our car parks and offices.

We are also proud sponsors of The Torch Mural initiative and support the Indigenous Literacy Foundation.
